

ISLAMIC PRIMARY SCHOOL
NOTICE
E-learning

E/IC/SC/17/114
27th February, 2018

Dear Parents,

As a knowledge-based and technologically driven society, Hong Kong is well placed to widely adopt e-learning. In order to cope with these changes, our school has implemented e-learning to enhance the effectiveness of learning and teaching.

E-learning is a kind of learning utilizing electronic technologies to access educational curriculum outside of a traditional classroom. In many cases, it refers to a course, program or degree delivered completely online. In our school, our teachers have been using e-learning platforms such as online video, Google for Education(Google classroom, Google drive, Google docs, Google slides etc.), education apps and QR codes for enhancing teaching performance. The adaptation of e-learning means that teaching and learning boundaries are reduced and interactive communication between teachers and students can occur anytime, anywhere.

With all its benefits, we would therefore like to invite you to work with us by encouraging your child to take part in e-learning. A better result will be ensured if you could be alongside your child while they are engaging in the e-learning tasks.

For further information, please contact Ms. Lee Po Po during school hours.

Yours sincerely,

Ng Sui Lan
Headmistress
